

REMARKS

The present Amendment makes editorial changes in the specification, drawings and claims, and adds an Abstract, to conform the present PCT application to the requirements of United States patent practice. The
5 cancellation of claims 1-6 on the substitute pages in favor of the claims presented herein has been done solely because the amount of line throughs and underlinings that would have been necessary to conform claims 1-6 to the requirements of 35 U.S.C. §112, second paragraph would have been unduly burdensome and confusing. No change in the claim language is considered
10 by the Applicant to be a surrender of any of the subject matter encompassed within the scope of claims 1-6 on the substitute pages.

Early consideration of the application on the merits is respectfully requested.
